Got Peace of mind?

Did you know that we can host **mandarin** for you? That means you can sleep better at night, confident that your patrons will always have access to your resources and your catalog will be available when you get to the library in the morning

mandarin Oasis hosting includes:

- Fast, reliable access
- Tech support, 24/7
- Automatic software updates
- Guaranteed data security
- Backups performed and stored on premises and off premises

At **mandarin**, we know that your job is to provide services to your patrons and that you have more important work to do than to administer and troubleshoot your technology.

That's why **mandarin** offers affordable hosting, and it's why we provide reliable solutions customized to suit your needs.

Mandarin Library Automation Announces iPad2 Winner

Mandarin Library Automation has announced the winner of the "Show Us Your Library" contest (Apple iPad 2 grand prize).

Boca Raton, FL - June 2011 - Mandarin Library Automation (www.mlasolutions.com) is excited to announce the winner of the "Show Us Your Library" photo contest, Olivia Konys, age 16, Grade 11!. Her entry was chosen from the hundreds of submitted photographs. Ms. Konys will receive an iPad2. She has chosen the subject of her photo The Manlius Library to receive the 2nd iPad2.

What does your library mean to you? Olivia Konys: "For the past three years, I have volunteered 2 hours per week at the Manlius Library. Though this time commitment is great, I have found it to be only a positive experience. My library is complete with a helpful and enthusiastic staff behind the counters that embraces the feeling of home. With my school and other hobbies, I still take the time to spend extra hours at the library and find that there I can be efficient and helpful in my community and my own life."

"It was hard to pick from the many wonderful entries, but in the end Ms. Konys submitted a photo which caught our panel's eye. Congratulations from the Mandarin family to Ms. Konys and The Manlius Library, "said Art Graham, Vice President of Operations. Mr. Graham continues, "We are glad to be able to share her vision of her local library."
